

COMMENTARY ON WATER QUALITY

The water supplied to the zone is classified as being moderately soft water, which is river/reservoir derived. As we have a grid system in place whereby we can move water around the Yorkshire region as required, occasionally the hardness of your water may vary.

No fluoride is added to the water. Any fluoride that is there is naturally occurring.

The geographical area covered by this Water Supply Zone is show below:

Water Supply Zone: Harden/Heaton 2024
