

COMMENTARY ON WATER QUALITY

The water supplied to the zone is classified as being moderately hard to hard water, which is river derived. As we have a grid system in place whereby we can move water around the Yorkshire region as required, occasionally the hardness of your water may vary.

No fluoride is added to the water. Any fluoride that is there is naturally occurring.

The geographical area covered by this Water Supply Zone is shown below:

(Ody) COPYRIGHT STATEMENTS: Based upon Ordnance Survey map data with the permission of the Controller of HMSO, (c) Crown Copyright. Licence No. 100019559. Copyright for additional WSZ boundary data shown on this map rests with Yorkshire Water.
